

VONDA LYNN ZITTING KUNZ
DOULA, STUDENT MIDWIFE

OBJECTIVE

I desire to finish midwifery college, and then take an active role in providing one on one care for all women, having an open access and a skilled midwifery services. I want to “be the difference” by following the midwife model, to ensure that all those that are entrusted to me, get both a positive experience and the best possible outcomes. The role I could play in midwifery I believe could make a huge difference in my rural area and will be shown in the partnerships I establish with my clients, the complete midwifery care I hope to provide and in the responsibility, I’ll take in supporting and educating them. I believe all these will encourage them to take an active role in their own health care and informed decision making. I feel like I could be an asset to another midwifery practice or team of midwives and would like to start my practice there and eventually have my own business and birthing home.

EDUCATION

MIDWIVES COLLEGE OF UTAH

I am pursuing my BMS degree as a CPM (Certified Professional Midwife) I have been trained in many areas and I hold a 4.0 GPA

To whom it may concern,

I am a midwifery student at (MCU) Midwives College of Utah, I will not be graduating for several years yet, but I am starting the clinical program and I am beginning my search for a preceptor. I live in a rural area where there are only 2 midwives; one locally, and he is wanting to retire and another that is 1 hour and 40 minutes from me at Blooming Babies Birthing center, she states; “she by law can only take on students from Frontier (midwifery college) that will be working towards their CNM degree upon graduating.” I am pursuing my BMS degree as a CPM, because I am called to homebirth. I have completed many courses over my 4 years at MCU and I am very optimistic of one day graduating. I have included my resume for your review, please feel free to reach out to me with further questions.

Sincerely,

Vonda Lynn Zitting Kunz
